FINANCIAL AID AND SCHOLARSHIP INFORMATION

Financial aid programs have enabled thousands of students to achieve their educational goals. Students seeking funding from these programs should fully understand the policies and procedures governing the administration of financial aid. Barry University encourages students to use their own resources first to finance their education. When personal resources and the income and assets of the student are insufficient to meet the total cost of education, the Financial Aid Office makes every effort to supplement the student’s resources with available financial aid. The Financial Aid staff provides prospective and enrolled students with information regarding availability and eligibility for various student aid programs. Barry University participates in the full array of federal and state financial aid programs. In addition to these government-funded programs, we offer a number of scholarships, assistantships and discounts. 75% of our student body receives some form of financial aid. At Barry, we are committed to doing all we can to help you finance your education.
