NEW YORK COLLEGE OF PODIATRIC MEDICINE

Dean: Michael J. Trepal, DPM

GENERAL INFORMATION

The New York College of Podiatric Medicine, the first college of podiatric medicine, has a proven track-record of over one-hundred years of quality training resulting in the graduation of 25% of all active podiatric physicians. Continuously excellent board pass rates and residency placement at some of the top programs nationwide has earned recognition for both our institution and graduates.

NYCPM students have access to thousands of patients during their third year clinical rotations at neighboring affiliated hospitals including, but not limited to: Lincoln Medical and Mental Health Center, Metropolitan Hospital Center, Harlem Hospital Center, St. Luke's Hospital, and a vascular rotation at Mount Sinai Hospital. Our students also benefit clinically from the added asset of our on-site teaching clinic, the Foot Center of New York (FCNY). NYCPM has established over 170 hospital affiliates nationally for 4TH-year month-long externships. Students interested in externships abroad can participate with our international partners in Israel, India, Poland, Spain, Ireland, and Australia.

Our campus provides versatile learning with active clubs and organizations dedicated to community service and practical application of medical knowledge in real-world environments. Our students foster their curiosity through research offered to them via our diverse clinic patient population and by collaborations with neighboring medical schools and hospitals in New York City. NYCPM was the first college to establish a student run scholarly publication of research papers called the Podiatric Medical Review.

NYCPM students have the option of pursuing a DPM/MPH Dual-Degree in conjunction with the Icahn School of Medicine at Mount Sinai. There are multiple tracks a dual degree candidate can pursue in Public Health including Health Promotion & Disease Prevention, Occupational & Environmental Medicine, Global Health Outcomes Research, Biostatistics, Epidemiology, and Health Care Management.

Students not only gain an intellectual and academic advantage at NYCPM, but an unparalleled range of cultural experiences by leveraging the New York City landscape. The size of the school and the supportive faculty provide for an intimate, close-knit community. Students live and work in a vibrant scientific and cultural community, offered by the City's human and intellectual diversity. This is what shapes our culturally-competent practitioners. Tomorrow's leaders in podiatric medicine are enculturated through a wealth of formative academic, clinical, social, and cultural experiences that only NYCPM can provide.

MISSION STATEMENT:

It is the College's mission to provide, to students seeking careers as doctors of podiatric medicine, a comprehensive medical educational program specializing in the medical and surgical management of the lower extremity, with the ability to diagnose systemic diseases and their lower extremity manifestations. The College will prepare students for eligibility for Graduate Medical Education, licensure and practice. Furthermore, it is the College's mission to promote state-of-the art patient care in affiliated facilities, and to pursue research to continuously advance the art and science of podiatric medicine.
