NEW YORK COLLEGE OF PODIATIC MEDICINE

Dean: Michael Trepal, DPM

GENERAL INFORMATION

The New York College of Podiatric Medicine, the first college of podiatric medicine, has a proven track-record of over one hundred years of quality training resulting in the graduation of 2% of all active podiatric physicians. Continuously excellent board passage rates and residency placement at some of the top programs nationwide has earned recognition for both our institution and graduates.

NYCPM students have access to thousands of patients during their third year clinical rotations at neighboring affiliated hospitals including, but not limited to: Lincoln Medical and Mental Health Center, Metropolitan Hospital Center, Harlem Hospital Center, St. Luke’s Hospital, and a vascular rotation at Mount Sinai Hospital. Our students also benefit clinically from the added asset of our on-site teaching clinic, the Foot Center of New York (FCNY). NYCPM has established over 200 hospital affiliates nationally for 4th-year month-long externships. Students interested in externships abroad can participate with our international partners in Israel, India, Poland, Spain, Ireland, and Australia.

Our campus provides versatile learning with active clubs and organizations dedicated to community service and practical application of medical knowledge in real-world environments. Our students foster their curiosity through research offered to them via our diverse clinic patient population and by collaborations with neighboring medical schools and hospitals in New York City. NYCPM was the first college to establish a student-run scholarly publication of research papers called the Podiatric Medical Review.

NYCPM students have the option of pursuing a DPM/MPH Dual-Degree in conjunction with the Icahn School of Medicine at Mount Sinai. There are multiple tracks a dual degree candidate can pursue in Public Health including Health Promotion & Disease Prevention, Occupational & Environmental Medicine, Global Health Outcomes Research, Biostatistics, Epidemiology, and Health Care Management.

Students not only gain an intellectual and academic advantage at NYCPM, but an unparalleled range of cultural experiences by leveraging the New York City landscape. The size of the school and the supportive faculty provide for an intimate, close-knit community. Students live and work in a vibrant scientific and cultural community, offered by the City’s human and intellectual diversity. This is what shapes our culturally-competent practitioners. Tomorrow’s leaders in podiatric medicine are enculturated through a wealth of formative academic, clinical, social, and cultural experiences that only NYCPM can provide.

MISSION STATEMENT:

It is the College’s mission to provide, to students seeking careers as doctors of podiatric medicine, a comprehensive medical educational program specializing in the medical and surgical management of the lower extremity, with the ability to diagnose systemic diseases and their lower extremity manifestations. The College will prepare students for eligibility for Graduate Medical Education, licensure and practice. Furthermore, it is the College’s mission to promote state-of-the-art patient care in affiliated facilities, and to pursue research to continuously advance the art and science of podiatric medicine.

PREPARATION EXTRAS:

It is strongly recommended that candidates for admission complete their Baccalaureate degree from an accredited college. The college seeks to admit students who are qualified to enter into the study of podiatric medicine by virtue of academic achievement and evidence of aptitude to pursue a medical profession. Strong consideration is given to prior academic performance, test scores, letters of recommendation, motivation for the podiatric profession, community and leadership activities and personal characteristics. Interviews are required and conducted by invitation only. Recommended courses in addition to the prerequisites include anatomy, biochemistry, histology, microbiology and physiology.

MCAT:

MCAT: MANDATORY
MCAT Exams Taken More Than Three (3) Years Prior To Application Are NOT Acceptable.

INTERNATIONAL STUDENTS

Academic pre-professional requirements for international students are equivalent to those American students. Equivalency is determined via evaluation by World Education Services or other acceptable agency, and certified translation of credentials not originally in English.

All non-resident applicants must be eligible for F-1 visas or provide proof of legal residency in the United States.

FINANCIAL AID AND SCHOLARSHIP INFORMATION

The Office of Financial Aid is committed to helping students finance their medical education by providing information and counseling on loans, work-study, and scholarships. Over 90 percent of our students receive some type of financial assistance. In addition, NYCPM awards over $750,000 in scholarships to our students each year. For incoming students, merit-based scholarships are awarded based on Science GPA, Cumulative GPA, and MCAT scores. First year scholarships are redeemable the following three years as long as the student maintains a 3.4 GPA. Additional information is available on our website and college catalog.
